

OLAKUNLE HASSAN

Frontend Engineer

+2348029732943 • kunlex_042003@yahoo.com • Lagos, Nigeria • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Summary

I develop high-quality, scalable web applications using React, TypeScript, and Next.js, ensuring smooth and efficient user experiences. My expertise in UI/UX implementation, performance optimization, and clean code maintenance helps businesses build reliable and user-friendly digital products. With a background in accounting, I bring strong analytical skills that allow me to solve complex problems and create cost-effective solutions. Conversant with AI-driven tools and integrations, I leverage emerging technologies to enhance functionality and deliver smarter solutions. My ability to bridge technology and business needs makes me a valuable asset in delivering impactful results.

Core Skills and Technologies

- **Frontend Development:** HTML, CSS, JavaScript, Reactjs, Vuejs, Nextjs, Tailwind CSS, Typescript
- **AI Integration:** ChatGPT, Copilot, Claude, AI-powered APIs and applications for enhanced productivity and user experience.
- **Version Control:** Git & GitHub
- **Software Development:** npm, Firebase, Agile methodology
- **Problem-Solving:** Debugging, code optimization, analytical thinking
- **Collaboration:** Teamwork, adaptability, communication, time management

Professional Experience

Frontend Developer | Cuitcode (Remote, Nigeria)

Aug 2025 - Dec 2025

- Developed Wakawork, a job matching platform connecting professionals with flexible work opportunity.
- Built responsive and scalable user interfaces using Nextjs and Typescript, improving accessibility.
- Collaborated with backed engineer to integrate APIs seamlessly, reducing data-fetching delays by **25%** and optimized performance.
- Implemented reusable components with SEO optimization, clean code practices and search visibility.

Frontend Developer | SkillHat Accelerator (Remote, Canada)

Feb 2025 - till present

- Collaborated with engineers to build Homestart, a web platform improving homebuyer accessibility, using Next.js and Typescript, leading to a 30% increase in user engagement.
- Collaborated with designers and backend engineers to ensure smooth integrations, reducing development bottlenecks by **25%**.
- Optimized website performance, improving load times by **40%**, resulting in faster page interactions and better user retention.
- Utilized Git for version control, streamlining project management and reducing code conflicts by **35%**.

Frontend Developer | InternPulse Internship (Remote, Nigeria)

Oct 2024 – Dec 2024

- Implemented interactive and responsive UI designs using React.js and TypeScript, improving usability and increasing feature adoption by **20%**.
- Worked closely with UX/UI designers to translate design mockups into high-quality code, reducing design-to-development turnaround time by **30%**.
- Ensured cross-browser compatibility and optimized web applications for performance, cutting load times by **35%** across different devices.
- Maintained and updated existing codebases, reducing technical debt and improving system efficiency by **25%**.
- Conducted code reviews, providing constructive feedback that led to a **40% decrease in reported bugs**.

- Built reusable front-end components using React.js, ensuring compatibility across browsers and reducing development time by **25%**.
- Developed **Timbu-Shop**, an e-commerce platform utilizing the Timbu API, leading to a **15% increase in transaction efficiency**.
- Successfully completed all internship tasks across different project stages, contributing to an overall **80% success rate on assigned features**.
- Wrote well-structured, testable, and maintainable code that improved development efficiency, reducing debugging time by **30%**.
- Contributed to a three-person engineering team, enabling efficient project execution and reducing sprint delays by **20%**.

Frontend Developer | AltSchool Africa (AltHub, Remote, Nigeria) (Group Project)

- Established a **peer review system** within a 7-member team, improving code quality by **40%** and reducing deployment errors.
- Assisted fellow developers by reviewing code, debugging, and contributing to project efficiency, leading to a **35% increase in delivery speed**.
- Gained extensive collaboration experience while developing a React.js application, enabling smoother workflows and a **50% decrease in revision cycles**.

Projects

Wakawork, [Link](#)

A job matching platform designed to connect professionals with flexible work opportunities. (Next.js, TypeScript)

HomeStart, [Link](#)

A **centralized digital platform** helping first-time home-buyers access, compare, and purchase pre-construction homes in one place. (Next.js, TypeScript)

EasyServe, [Link](#)

A web application connecting clients with skilled artisans for seamless service engagement. (React.js, TypeScript)

RenergyHub, [Link](#)

A marketplace simplifying access to **renewable energy products**, improving purchase efficiency. (React.js, TypeScript)

CutFitt_URL, [Link](#)

A Url Shortening service that allows you to shortend any long Url to a manageable and user-friendly link, helps you create a branded short links and generate QR-code . (Next.js, TypeScript)

Certifications

- Diploma in Frontend Engineering – AltSchool Africa
- Finalist Certificate of Completion – InternPulse
- Certificate of Proficiency – HNG Tech
- Deep Teaching Solution – Coursera

Education

AltSchool Africa, Lagos, Nigeria – Diploma in Software Engineering

National Open University, Lagos, Nigeria – B.Sc in Accounting
